Abstract.

1. **Historical context** – see below for details

Feasibility assessment of hydrophyllous plants for phytoremediation of heavy metal contaminated soils

2. *Microspora* and *Perkinsus* myxozoans should give rise

Donnerstag 11.01.2018

3. The authors, upon receipt of review of letters to (editors) a written explanation of the study results.

with hydrogen

3.1. Fluorescence spectroscopy of the interaction of myosin with actin
